ABOUT THE COMPANY

blockwize.com has played an integral role in the development of sustainable investing and in demonstrating the long-term commercial benefits of this approach. As Investment Service Providers, we have placed the acquisition of knowledge at our core ever since our first director said “every investment strategy should be research-driven”. We were one of the first asset managers to pioneer investing in emerging markets, the first to take sustainability investing seriously, and one of the first to adopt quantitative investing using advanced research techniques. Now we integrate sustainability investing as standard, while constantly developing new techniques in a range of fields including factor investing, equity trends and cryptocurrency.

We aim to enable our clients to achieve their financial and sustainability goals by providing superior investment returns and solutions. We do this by offering a compact, client-oriented and distinctive range of actively managed investment strategies and investment solutions.
